

LEADERS IN
CORROSION PREVENTION &
SEALING TECHNOLOGY

PREMIER CORROSION PREVENTION SYSTEMS FOR:

- 1 Buried pipelines and directional drilling
- 2 Subsea pipelines
- 3 Above-ground and soil-to-air interface pipework
- 4 Pipeline valves, welded joints, couplings and fittings
- 5 Mounded storage vessels
- 6 Storage tanks and pumps
- 7 Exposed steelwork and structures
- 8 Process plants, oil refineries and power generation
- 9 Offshore marine structures
- 10 Marine structures, jetty piles and tie bars
- 11 Bridges, tension cables and highway structures
- 12 Sewage treatment works
- 13 Metal roofs and roof purlins

PREMIER SEALING/WATERPROOFING/GAS PROOFING SYSTEMS FOR:

- 14 Industrial flooring
- 15 Bund walls
- 16 External culvert waterproofing
- 17 Flat roofs, balconies, parapets and flashings
- 18 Service entries, ducts and cable glands
- 19 Precast concrete jointing
- 20 Road construction, repair and maintenance
- 21 Car parks
- 22 Bridge decks
- 23 Airport runways
- 24 Light rail and tram tracks
- 25 Reservoir roofs
- 26 Gas proofing membranes

PREMIER BUILDING AND PLUMBING:

- 27 Professional building and plumbing contractors
- 28 Home repairs and maintenance

THE WORLDWIDE EXPERIENCE TO PROVIDE YOU WITH THE IDEAL SOLUTION

Premier Coatings Ltd., established in 1982, are leading manufacturers of cost-effective, long-term corrosion prevention, waterproofing and sealing technologies.

Based in Smarden, Kent, the company's products are used world-wide by the construction and civil engineering industries as well as the water, electric and gas utilities via a global network of dedicated and loyal agents. Their product brands, including Premseal™, Premtape™, Premcote™, Archco™, Protal™, Premier Shrink Sleeves™, Steelcoat™ and SeaShield™, offer an effective solution to corrosion prevention, sealing and waterproofing problems for buried, submerged or exposed steel or concrete pipes, tanks and structures and are well known for their ease of use, reliability and long-service life.

In 2017, Premier Coatings Ltd. celebrated 35-years of operations and were successful in achieving a Queen's Award for Enterprise: International Trade in recognition of their exemplary sales in international markets.

Premier Coatings Ltd. is a wholly owned subsidiary of Winn & Coales International.

The above companies are members of
Winn & Coales International Ltd.

SeaShield™ system protecting jetty piles, Libya.

Subsea joints of sea-outfall, Atlantic Ocean, protected with Premcote™ Marine Tape System.

Steelcoat™ System applied in-situ to protect aerial pipelines, New Zealand.

Premtape™ Petrolatum Tape protects cooling tower pipes.

Premier Acrylic Tape prevents galvanic corrosion on 7.5 acre roof of refurbished aircraft hangar, UK.

Runway re-surfacing, UK, mastic asphalt joints sealed with Premier Road System.

Protal 7200™ liquid coating applied to Field Joints, Australia.

Archco™ Liquid Reinforced System protects a tank's internal surfaces, Korea.

Application of Premtape LD Mastic™ to a pipe flange.

Premier Moulding Compound™ creates smooth profiles for wrapping.

Concrete to asphalt platform joints sealed with the Premier Road System, UK.

Premstrip™ Joint Sealant for precast concrete box culverts, UK.

Application of two Premier tapes simultaneously using a Premier wrapping machine.

Application of Premier P2 System™ to water pipeline, UK.

Premcote 450R Tropical™ applied to oil pipelines in the United Arab Emirates.

Protal 7200™ spray applied to pipeline valve in Dubai, UAE.

Premier Tie-Bar System protects Atlantic Ocean sea defences against corrosion.

Steelcoat™ System protects steelwork and service pipes of gantry crane, South Africa.

SeaShield 2000FD™ Jacket applied to jetty pile, Australia.

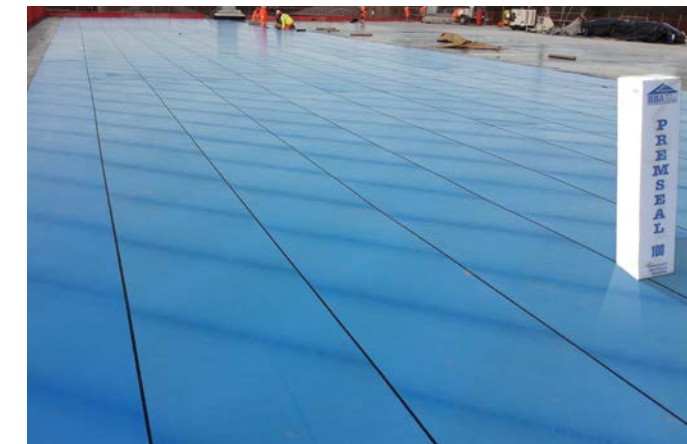

The welded joint areas on this North American pipeline are protected with a Protal™ Liquid Coating System.

Application of Steelcoat™ Tank Base Protection System, UAE.

Water pipe bridge, UK, protected with a Steelcoat™ System, applied in-situ without grit blasting.

Premseal 100™ waterproofing membrane applied to reservoir roof in Essex, United Kingdom.

Electrical cable duct entries at UK ethylene plant, sealed with Premier™ Moulding Compound.
