Premier Overbanding Tape

A cold applied bituminous tape for sealing pavement cracks

Composition
Premier Overbanding Tape is a blend of polymer modified bitumen in tape form, protected by a disposable release film.

Uses
Premier Overbanding Tape is used for surface sealing of open seams or cracks up to 5 mm width in road pavements on secondary roads.

Service Temperature: -20°C to +80°C

Characteristics
Premier Overbanding Tape;
- has excellent resistance to water, acids, alkalis and salts, and
- prevents further cracking and spalling of the road surface.

Application
See *Instructions for use* for details.

Recommended primer: Premband Primer

Application Temperature: +8°C to +45°C.

Availability
Premier Overbanding Tape is available in 10 metre lengths that are 30 mm, 40 mm or 50 mm in width.
Rolls per carton;
30 mm width – 24 rolls
40 mm width – 20 rolls
50 mm width – 16 rolls

Storage Conditions
Store in a cool and dry place in original packaging.

Waste Material
Please avoid or minimise waste wherever possible. Please do not discard waste material, including packaging, in the surrounding environment. Follow all relevant legislation for disposal.

Typical Properties

Colour	Black
Thickness	1.9 mm
Core Size	76 m I.D.
Softening point	120°C
